Booming Out: Mohawk Ironworkers Build New York

photo: sites.si.edu

National Museum of the American Indian

Alex. Hamilton U.S. Custom House, One Bowling Green, NYC 10004

Mon-Fri 10-5

April 26–Oct 24

The Mohawk tradition of ironworking began in the mid-1880s when Mohawks were hired as unskilled laborers to build a bridge over the St. Lawrence River onto Mohawk land. Working in NYC since the 1920s, these brave & skilled ironworkers built the Empire State Building, Chrysler Building, Geo. Washington Bridge, & World Trade Center. During the 1940s and 1950s, many Mohawk ironworking families moved to the NY area – as many as 700 families into Brooklyn – to aid in the city’s vertical expansion. Free. 1982 Chinatown Garment Workers Strike

團結 是我們爭取得新合約的力量

Online at LaborArts.org

Opens May 1

Two extraordinary rallies in June & July 1982 were at the heart of the 1982 Chinatown garment workers strike. The story of 20,000+ immigrant Chinese women demanding their labor rights in a brief but successful strike wrote new pages in American labor history & improved the status of women in the Chinese ethnic community. Forty years later, this **LaborArts** exhibit provides a narrative & a wealth of materials about this resonant story about the dignity & rights of workers & women. Free. LaborArts.org

First Full Retrospective in New York of Faith Ringgold

Faith Ringgold: American People: New Museum

New Museum

235 Bowery, NYC 10002

Tu-Sun 11-6

Through June 5th

During the 1960s, **Faith Ringgold** created some of the most indelible art of the Civil Rights era by melding her own unique style of figurative painting with a bold, transformative approach to the language of protest. The exhibition will provide an extensive look at Ringgold’s early paintings. Using what the artist described as a “super-realist” visual language, Ringgold captured the racial & gender divisions in 1960s American society with searing insight. \$18; seniors \$15; students \$12; 18 & under free. Labor History Month Proclamations: A Proclamation by the President of the United States

photo: The White House

For more than a century, the labor movement in the United States has served as a major force for our economic and social progress as a Nation. American trade unionists have fought for and achieved benefits for all citizens. At the turn of the century, the average worker made about ten dollars for a 60-hour week, and more than 2 million children similarly worked long hours for even less pay. Prior to the formation of a national labor movement in 1881, safe working conditions, regular hours, decent living wages, paid holidays, and vacations were often mere dreams. Emergency and family leave were almost unimaginable.

The struggle of American workers against these appalling circumstances transformed our Nation. Disasters, like the 1911 Triangle Shirtwaist Fire and the 1991 Hamlet Poultry Fire, and triumphs, like the Sanitation Workers struggle for dignity and union representation in 1968, have played a significant role in shaping American life. By studying labor history, we find the foundations of work life in America—the 8-hour day, the 40-hour week, security in unemployment and old age, protection for the sick and injured, equal employment opportunity, protection for children, and health and safety standards. In addition, labor history shows that American workers were in the forefront of the effort to make public education available for every child.

As an American, I am proud of the accomplishments of our labor movement, through which we all enjoy better lives. In issuing this proclamation to observe Labor History Month, I recognize that our work for economic and social progress in America is not over. As we approach the 21st century, the next chapter of labor history must be characterized by a strong voice for America's workers. This will include establishing partnerships of employers and workers, cooperating to achieve safe, high-performance work environments, improving the skills of American workers and the competitiveness of American businesses, and enhancing human dignity in the American workplace.

Now, Therefore, I, Joseph R. Biden, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the U.S., do hereby proclaim the month of May 2022, as "Labor History Month." I call upon the people of the U.S. to observe this period with appropriate programs, ceremonies, and activities. *In Witness Whereof*, I have hereunto set my hand this first day of May, in the year of our Lord two thousand twenty-two, and of the Independence of the United States of America.

Joseph R. Biden

A Proclamation by the Governor of the State of New York

photo: governor/ny.gov

Workers in our great state have made – and continue to make – a significant contribution to our economic, social, and cultural life. Today, New Yorkers work in safer conditions and for more equitable pay and better benefits than their family members did generations ago. But we must be aware that one of the most valuable assets of our state -- our workers -- deserve improved working conditions that promote their dignity and worth as individuals.

During the early years of our history, workers endured excessively long work hours, under unsanitary and dangerous working conditions for very little pay. Sweatshops attracted and exploited our state's newest immigrants, who were their share of the American dream.

As a result of tragedies like the Triangle Shirtwaist fire in New York City and the resulting demand for change, new worker protection laws were enacted. Landmark worker protection laws and other legislation supporting working families have been enacted in the state as a direct result of the efforts of the labor movement.

During the Month of May, we reflect on the constant struggles of previous generations whose efforts contributed to the enactment of labor laws and the improvement of working conditions we enjoy today. Let us all remember their sacrifice and accomplishments in making our work places better.

All educators are urged to highlight and incorporate lessons on the history and activities of the labor movement into their classes.

NOW, THEREFORE, I, KATHY HOCHUL, Governor of New York State, by virtue of the authority vested in me by the Constitution and laws of the State and New York, do hereby proclaim May 2022, as Labor History Month.

IN WITNESS WHEREOF, I have hereunto set my hand this 1st day of May, in the year of our Lord two thousand and twenty-two.
